

Website Design and Services Pricing

Our Website Prices Do Not Include Hosting Accounts or Domain Name costs. However these are very inexpensive, we will help you obtain them and will configure for you when you purchase any of our website packages.

Websites Starting At \$649

Business Starter Package

Includes:

- Site Design
- Install
- Setup
- Configuration
- Approximately 5 Pages including a Contact Page
- Custom Error Page if visitors go to an old link or type the wrong address.

For additional features, pages, etc., we are happy to give you a quote based on your specific requirements. All of our websites can be added to and/or updated at a later time just for the cost of doing the upgrade.

Hourly Rate – \$50

Custom work or support not included in normal pricing

Monthly Website Support and Hosting – \$50/Month

Includes:

- Content Updates (Text and Images)
- Website Backup
- Updates/Patches to Website Components as required
- SSL Encryption (<https://www.yoursite.com>)

Custom Support Plans – Price is based upon your special requirements

If you need other Website related services that aren't listed, please [Contact Us](#) and ask!

The Following is Included in All Websites

- 30 Days Support to correct website issues not caused by the client or anyone acting on their behalf.
- Full Backup of the Website at the state when the site is turned over to the client
- Domain Name Acquisition, Setup and/or Transfer *
- Hosting Account Setup, Configuration and Website Installation on the Host. If you have an existing host, [Contact Us](#) with hosting company information that the account is with and the package name so we can make sure the Website Built by Sac City Tech will be supported. This is rarely an issue.

Please Note: For all of our website packages, we expect the client to provide us with "Copy Ready Text". This simply means that the client has reviewed the text for content accuracy, proper spelling and grammar, etc. After all, you know your business and what you want to present to your clients better than anyone. If you need help with writing the text for your website, we can offer "Copywriting" services and work with you to provide engaging text for you site based on information you can provide as well as your goals. Until we know what your needs are and how much text you need written, it's difficult to quote an accurate price. The cost will likely be between \$100-\$200 per 500 words depending upon how much information is provided and number of revisions. For many small businesses, it may not make sense to pay for this service for the entire site. We suggest in this case to focus on text used on the first page of the site. Please [Contact Us](#) for more information.

For best results, all images submitted for posting on the website should be the highest resolution available. We'll design you a great looking site to show off the content you want to present. When you are ready to purchase a website, please [Contact Us](#) to discuss the details of what you need in a website. Our goal is to get you the website you need, not to sell the highest priced package. There are far too many options to list and complexity varies quite a bit with different features. We will work with you to select the solution that is most cost effective for you and has the features you need. This may or may not be the lowest cost package, but we'll do our best to provide you with the best website and price to fit your needs!

* If included in any website quote or offer, Domain Names must either be already owned by the client and available to be approved for transfer and/or repointing. If it's a new Domain Name to be registered, it must be available to register with any of the normal Domain Registrars and not a company that has purchased the domain in order to resell at higher prices. While Sac City Tech can help with the technical details of the Domain Setup, client is fully responsible for all costs involved with domain names. Domain Name prices vary by Registrar and Domain Type (.COM, .NET, etc.) but the typical cost for 1 year is usually around \$10-\$15 / year.
